

LARUS

LARUS

design Andrea Stramigioli

Bordet er inspirert av en måkevinges form, en kombinasjon av estetikk og funksjonalitet. Designet kombinerer form og teknikk på samme måte som noen av fortidens biler – hvor linjer, former og estetikk ble vektlagt omtrent like mye som det tekniske.

Et sted mellom drøm og virkelighet, en reise i fantasien innenfor kontorets vegger.

Linjeren, høytidelig og elegant, men samtidig myk og dynamisk.

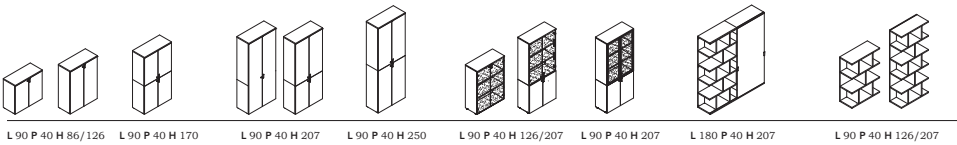

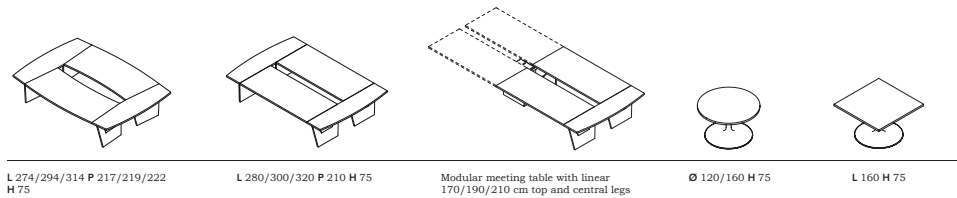

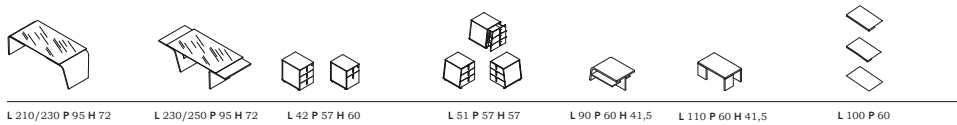

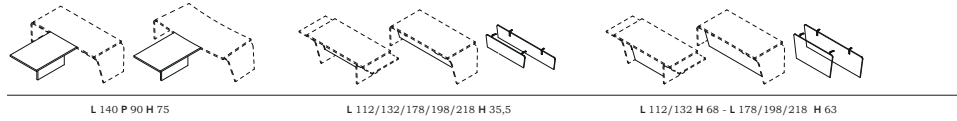

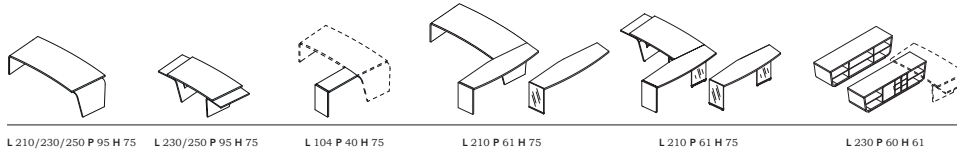

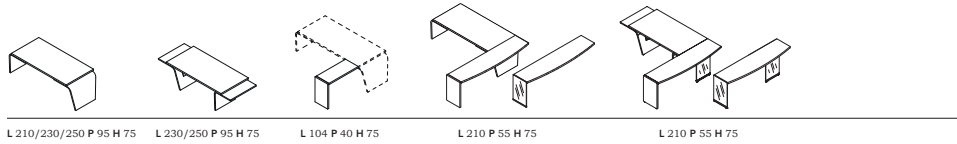

Treverkets robusthet sammen med myke slyngende linjer gir en innovativ og ergonomisk arbeidsplass.
